RDBTools v0.9.40.1, June 2019

Bug fixes

- Fixed multiple issues in RedisJSON view in the Browser tool
  - Fixed styling of JSON
  - Rename ReJSON to JSON on Add Key
  - Delete button is not shown on closed node in JSON

- Float strings were being considered as JSON strings and the user was not allowed to edit it (JSON object strings cannot be edited)

- Fixed a crash in the Configuration tool due to a JS bug

- * literal was not supported in the search bar in the Profiling tool
